## **SYMONDS, Deni**

I am a 28-year-old Perth resident who works in Governance, Integrity and Reform at a large state government agency. I know how to work through bureaucracy to achieve positive community outcomes while embedding a culture of transparency and accountability. I live, work and play in the city and love what it has to offer. I want to be a fresh, independent voice who won't join a faction or politicise the issues that affect our lives. I will work with all councillors to create community facilities residents can enjoy, streets that are safe, services for people experiencing homelessness to get the support they need, and world class attractions and events that will attract people to the city. As a ratepayer, I am committed to ensuring every decision on expenditure is managed responsibly and the council is delivering optimal value-for-money from the City's finite budget.
