---

## HADDADEN, Nancy

Lets create Perth for People!

With just under 3 years of experience working in the Local Government sector, combined with 10 years of experience working in the private, NGO, and academic sectors as a Civil Engineer; I bring a diversity of knowledge and skills required to raise the bar of our Western Australian Capital City.

Last year, I was selected as a member of the Community Reference Group who assisted the City of Perth in developing a Community Needs Study; which essentially informed the Community Strategic Plan. The process highlighted the complexity of issues required to revive our City.

I will have my nose inside the Council Chambers, and my eyes wide open specifically to the youth & elderly. I will also make every effort to bring more culture into our City through engaging the unique academic institutions, which seem to be overlooked as valuable assets and sources of wisdom.
