---

## TROLIO, Claire

I am an independent, small business owner passionate about Perth and helping guide the city forwards.

Small businesses are vital for the economy, tourism, culture and connection: I believe in promoting and encouraging small business and entrepreneurs.

I will push for a green, sustainable city with urgent and progressive action on climate change.

I value the diversity of the city's residents, businesses and visitors. The city must be a safe and inclusive space for everyone. I want more consultation with First Nations representatives to inform council decisions.

I love the world class arts scene in Perth. I love the uniqueness of our city and the precincts within it. I hope for a Perth filled with culture and community engagement to enjoy with my young family.
