## ROSENBERG, Michelle

Kaya, I live, manage a small business and work in Perth. I understand the opportunities and challenges of having a small business within the City and want to work with the City and business owners to improve the way the City does business with business.

I want to be part of Perth's bigger picture, this can only be achieved with collaboration between the City, small businesses, big businesses, residents, the State and Federal Governments. Perth is still growing and there is so much more potential. Opportunities to build, grow and invigorate our city.

I want everyone to feel as safe as I do walking home and I want to see the city more than a Monday to Friday destination.

Opportunities for improvement:

- Activation throughout Perth - including business and the arts,
- young people as residents in the city, services and facilities,
- improvements for business,
- homelessness as a State issue.
