

City of Perth

Building Certification Services

Are you experiencing
frustration, a lack
of certainty or other
difficulties with the
Building Act?

How we can assist?

The City of Perth offers expert technical services combined with certainty in terms of compliance with the Building Code of Australia (BCA) and other relevant legislation.

Employing our in-house depth of technical knowledge expertise, the City can provide value adding features in terms of guidance relating to planning, health and other statutory matters.

The Building Surveying team is committed to ensuring that your project is well managed to achieve the optimum outcome for yourself and your client.

The City of Perth offers a highly competitive fee structure which is aimed to provide a high value for money level of service.

Our Experiences

Our team comes from diverse backgrounds and experience covering not only building surveying at a highly qualified level but also architectural and engineering skills.

Services we provide throughout WA

- Building Certification: Issuance of Certificate of Design Compliance (CDC) & Certificate of Construction Compliance (CCC)
- Building Certification for Retrospective Works or Tenancy/Unit Strata: Issuance of Certificate of Building Compliance (CBC)
- Assessment of Performance Based BCA Compliance
- Technical Due Diligence Audits and Reports
- Fire Safety Audits & Upgrade Strategies
- Feasibility Studies in relation to BCA Compliance

Do you want certainty with your building and occupancy permits?

The City of Perth provides a one-stop-shop. From building inception to completion the City of Perth will make sure all your associated approvals are in place to avoid any delays.

The City also provides guidance on and issues Building and Demolition Permits, Occupancy Permits and Strata clearances, Events and Temporary Building Permits.

Contact building@cityofperth.wa.gov.au for an estimate of cost for building certification services.

Come to us, the organisation with the proven track record and get the certainty you need.
