

Information Sheet

Construction and Demolition Management Plan

The City of Perth is committed to ensuring construction and demolition works are undertaken with the minimal impact and disruption to the surrounding community.

To achieve this, builders and demolition contractors are required to complete and submit a Construction and Demolition Management Plan Pro-Forma, prior to making application for a Building or Demolition Permit.

There are three steps to the Construction and Demolition Management Plan:

The City will assess the Construction and Demolition Management Plan Pro-Forma Application and once cleared, the City will issue an “Approved Methodology” document signaling that you can now submit your application for a Building or Demolition Permit.
